

Direct Relief, an international humanitarian aid organization, gave Junta de Beneficencia de Guayaquil, a generous donation of masks, bio-security implements such as isolation gowns, surgical gloves, protective suits, visors, body soaps, prenatal vitamins, personal protective equipment, and others.

The donation is for Luis Vernaza Hospital's patients, as well as to those of Corazón de Jesús, Elderly Home, Neuroscience Institute and Roberto Gilbert Children's Hospital. This donation will also be shared with other non -for- profit organizations that provide medical services to people with scarce income.

Direct Relief is an active organization in more than 80 countries, and since 2010 has been collaborating with Junta de Beneficencia de Guayaquil, sending donations of equipment, medical supplies, medicines and technical aids with the sole objective of humanitarian help.
